We reserve the right to limit quantity of any plant variety to one customer. We suggest that you give an alternate choice, of plants, so there will be no delay if we are sold out at time order is received—our fall stock is usually ample, but in late spring it is often depleted of certain kinds. All claims for errors must be made within six days.

AN INVITATION TO MAIL ORDER CUSTOMERS—We invite newcomers to become satisfied clients by sending us a trial order for either seed or plants, or both.

We thank all our past customers for their confidence in our herbs, and for their appreciated orders which have made our nursery grow and prosper.

AN INVITATION TO OUR NURSERY—All herb friends are welcome the year round. We will give a personally conducted tour through our 'Showcase' gardens. Visit our herbs, and experience the flavor in person: see the way they look, smell their aromas . . . taste and sniff the herbs, and let us tell you about all the plants in which you are interested. Our ancient boxwood, too, is worth a sight-seeing trip.

Herb Questions Answered: Send self-addressed stamped envelope.

For complete botanical names, descriptions and cultural advice of all the herbs in this price list, plus many more, we suggest our handbooks. They give invaluable aid in planning and maintaining your herb garden. If you need our experienced help in designing a small or large garden, kindly send specific size, exposure, etc.; allow plenty of time for drawing the design . . . none can be supplied during April or May, our rush season.

These prices cancel all previous ones and are subject to be altered, according to our supply of plant stock and our seed harvest, without notice. Plants are offered subject to prior sale and are shipped at the risk and expense of the customer. As we do our level best to pack well and ship right after digging them from our gardens, plants should reach you in good condition, unless damaged or delayed en route or other conditions over which we have no control. "Special Handling" packages arrive as quickly as First Class mail; Special Delivery, for city addresses, is excellent and costs but a little more for the extra fee. Our nursery is certified by the U. S. government and so we can ship anywhere in this country or its possessions.

We advise ordering early and transplanting while it is cool. Tender perennials may be potted until time to put them out in your garden; if you have a coldframe, so much the better. Most of our plants are hardy fieldgrown herbs, not tiny rooted cuttings, and should give good results as soon as established in your garden. We supply many of the large public gardens, such as: Colonial Williamsburg, The Cloisters, Plimoth Plantation, Restorations of the Garden Clubs of Virginia . . . also International Flower Shows and the like.

LOCATION OF NURSERY: In Campbell County, south of Lynchburg, just off of U. S. Highway 29. (We are not at Rustburg.) For the North: Take the new expressway, bypassing the city of Lynchburg, and drive for five miles—after the bypass ends—until you see our roadsign on U. S. 29 and County road 622 (just beyond Bonnie's Lake); turn right on 622 for a little over a mile and a half; our entrance sign is on the left side of this road. From the South: Turn left on 622, about 3 miles after passing The Virginia Inn and Colonial Motel. East and West traffic: Take 460 to 29; we can advise shorter routes for your return trip.

Visiting Hours: All day Saturdays and Holidays; Sundays from 2 to 7 P. M.; all other days from 1 to 5—otherwise please notify us in advance. Summer visitors after 10 A. M.

"A wonderful thing is a seed,
The one thing deathless forever
Forever old and forever new,
Fickle and faithless never.
Plant your lillies and lillies bloom,
Plant roses and roses will grow
Plant hatred and hatred alive will spring
The fruit of the seed you sow."
